

Personal Minimums

Just because it's legal does not always mean it's safe. FAA regulations set the bar extremely low. Often we must analyze and match our own experience with the type of weather in which we navigate. How and why we set our personal minimums to minimize operational risk is a very important science that every airman needs to learn. Attend this informative seminar and determine how to derive your personal minimums before your next flight. Click the link below and register TODAY.

Directions: The Aviation Technology building is first building on right at the end of Aviation Drive. The break room is the first room on left after entering the front door.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
